

RIBAG

SPARK wins iF DESIGN Award 2020

RIBAG has won this year's iF DESIGN AWARD with SPARK and is one of the prize winners of the world-renowned design label. The iF DESIGN AWARD is presented once a year by the world's oldest independent design institution, the iF International Forum Design GmbH in Hanover.

The miniaturised SPARK downlight family impressed the 78-member independent international jury of experts with its four different high-precision light guides, over 1000 different design variations, timeless design and high lighting quality. The number of applicants was large: the jurors had to award the coveted seal of approval from among 7298 entries from 56 countries.
